Construction Service

We quote for this on a case by case basis depending on what you intend to order, where the site is located and the ground type. Please consult with us to discuss and get a competitive quote.

Our 800 gauge clear polythene is high quality long life polythene from France (and is thermic).

Our hoops are **high tensile** 60.3mm galvanised steel (2mm wall) at 2m centres.

Our foundation tubes are 54mm diameter x 1500mm long (2mm wall).

The ridge bars (3 lines of them) and corner braces are 50.8mm diameter high tensile steel tube.

Side Purlins – extra reinforcing bars, only required in extremely exposed locations.

Crop Support Bars – for tying your plants up to or suspending hanging baskets or irrigation.

Lateral Crop Bars – you need the crop bars if you want these.

Anti Hot Spot Tape – prevents chaffing of polythene on the frame in exposed locations.

Ground Cover Fabric – kit complete with joining tape and pegs, suppresses weeds.

Aluminium Cladding Rails – for securing your polythene as an alternative to burying it.

Flat Feet – instead of foundation tubes, for fixing the polytunnel down to a concrete floor.

Static Side Net Vents – open all the time, for hardy nursery stock with green windbreak mesh.

Roll Up Side Vent – allows you to regulate the ventilation.

Alu Gutter – Rain collection gutter system fixes to top rail of side vent system.

Overhead Irrigation – twin overhead spraylines with Netafim sprayers.

Hanging Kit – to suspend the overhead spraylines if there are no crop support bars.

Fadrip Kit – ground drip irrigation pipes, 15 lines of drip tube running parallel the length of the tunnel.

Green/White Polythene – available but requires cladding rails or side vents to fit as is only 12.5m wide.

If you require any other features or accessories for your Polytunnel please let us know.
